## Forward

We all know that the baby boomer generation began turning age 65 in 2011.

[AARP](#) estimates that 8,000 people are turning age 65 per day.

[MetLife](#) conducted a national survey in 2010 and estimated there are 1.5 million older adults (65 years of age or older) who identify as lesbian, gay, or bi, and hundreds of older adults are estimated who identify as transgender.

According to the [Institute of Medicine](#), by 2030, the population of lesbian, gay, and bisexual older adults is estimated to grow to 3 million, and the number of transgender older adults will also continue to grow, although the Institute does not have an exact number of how large the number will become.

These numbers are bringing visibility to the unique needs, challenges, services, and training needs with LGBT and Aging.

-----

This project began with the purpose of providing a more complete informational guide for Family Eldercare staff. We discovered many people and organizations have interest in the information so have decided to share this resource guide with our local Austin community.

Any omissions of organizations, programs, services, and other references is not intentional (NOTE: Some organizations we contacted did not give their permission to be included in this guide). This *Resource Guide for LGBT and Aging in the Austin Area* is by no means exhaustive. Please note that additional groups and organizations that serve LGBT older adults may exist and may also only be available by word of mouth.

The intention for this resource guide is to provide support to our local LGBT older adults and to spread awareness of LGBT and Aging needs and services throughout the Austin community.

## Special Thanks

I would like to thank Family Eldercare for allowing me the opportunity to create this resource guide for them and the greater community. A special thanks goes to Family Eldercare staff Joyce Hefner, Andrew Rivera, Cheryl Young, and Emily Habermehl for reviewing this resource guide. I would also like to thank Lisa Daly, former Family Eldercare AGLSS Coordinator, and Shane Whalley, Education Coordinator of the Gender and Sexuality Center at the University of Texas in Austin, for speaking with me about LGBT and aging issues and assisting with resources.

Thank you to all organizations, agencies, and individuals who will use this resource guide to support our local LGBT older adult population.
